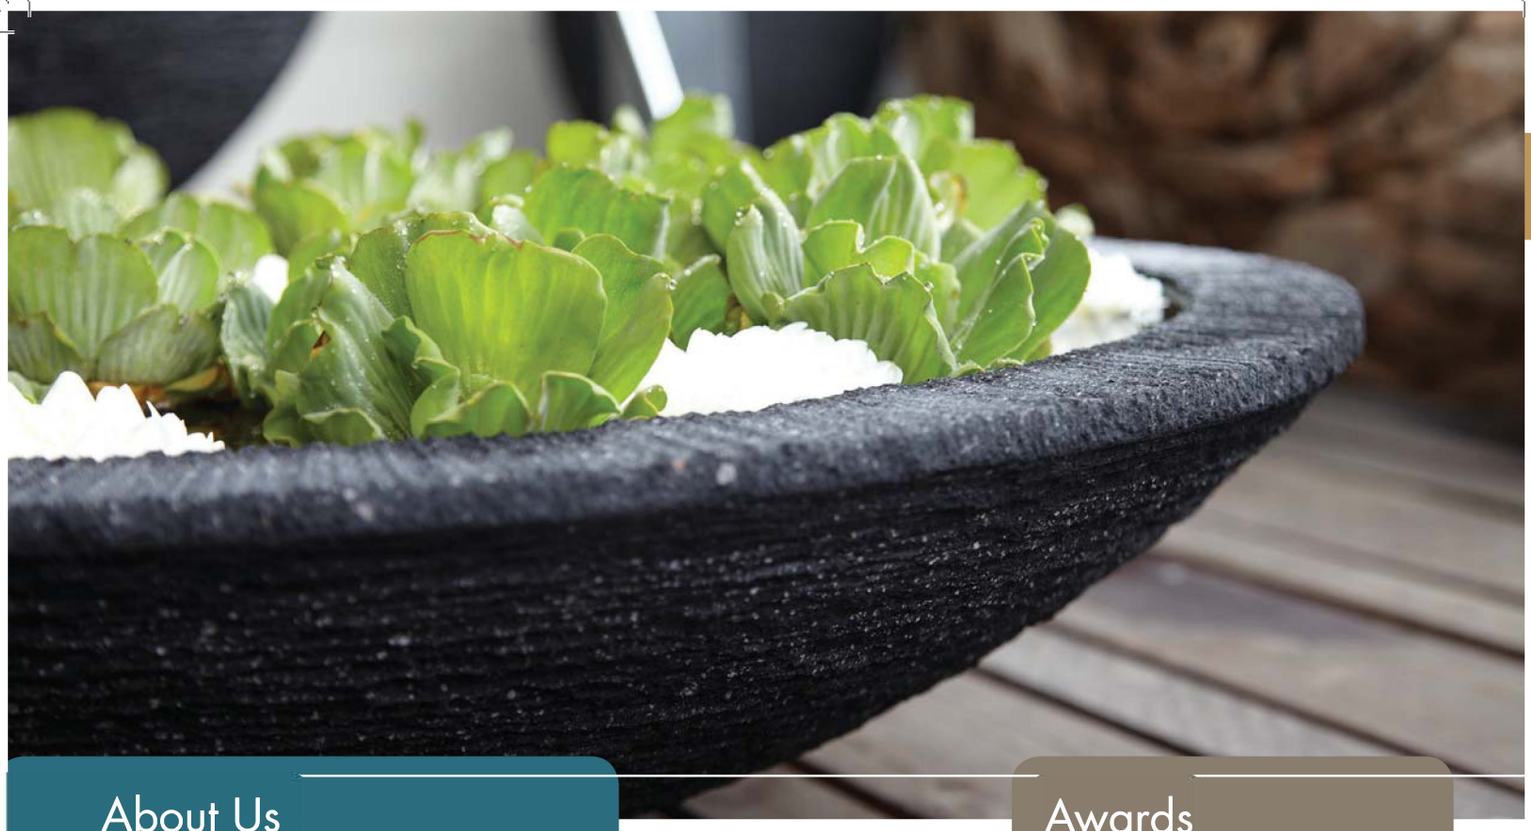
Contemporary Copper and Stone Designs



About Us

Imagine the seductive shimmer of water as it makes its way down a copper wall, the moving water enhancing the reflective properties of the patterned metal. Or a natural stone pedestal fountain bubbling over into a pebble filled pond. Whichever style you prefer, there is no denying the mesmerising qualities of water in motion.

Water Features Direct specialises in water features, some crafted from copper, others from natural stone, reconstituted stone, terracotta, GRC or terrazzo. All features - including a selection of decorative garden pieces and pots - are designed by the owner of the company, so you can rest assured that you will be treated to a selection unlike any other in Australia.

To ensure quality, each piece is hand made and to deliver the versatility discerning home owners demand, they can be customised to suit your specific needs. We specialise in all aspects of landscape and supply ponds, lighting, plants and more.

There are always new designs arriving in store and online.

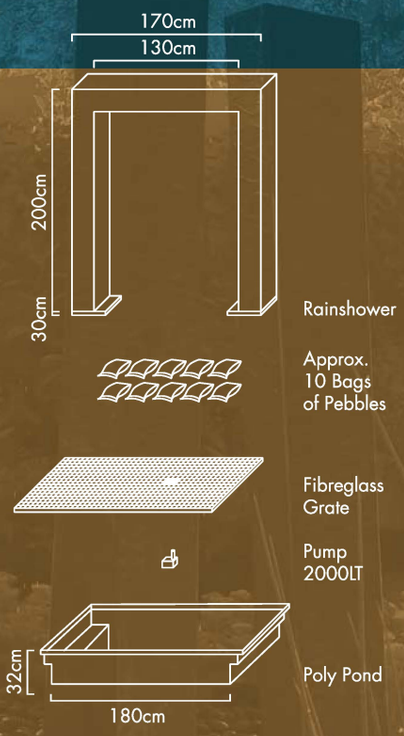
Rain Showers $7,200

The ultimate centrepiece. The Rain Shower stands at an impressive 2 metres tall and creates a curtain of water wall between it's frame.

Complete with, pond, grates, pump, 2 x lights, transformer, pebbles. The flow of the pump can be adjusted for full flow curtain or tranquil dripping. This is the pinnacle of water features. Available in copper or stainless steel this item can be custom built for specific sizes.

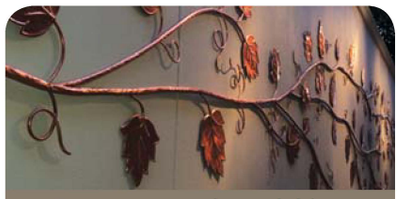


Sculptural Features

Modern and contemporary, these statues would look magnificent in any home and can be utilised for both indoor and outdoor use.

Statues start from $219

Standing at 1m or 1.5m tall, these statues are available with different finishes from Greystone, Black Terrazzo and White Terrazzo.
Our unique and contemporary teak & stone collections include wall hangings, and artistically designed spherical balls available in sizes that start from 30cm to 100cm.

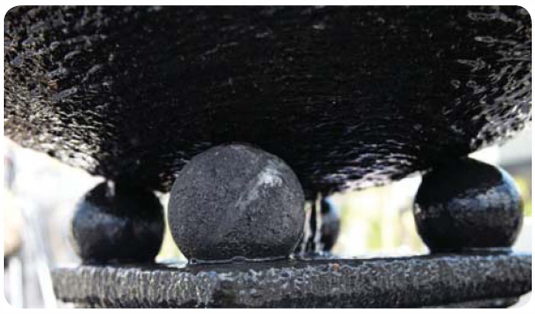


Copper art work available as custom orders

There is a great range of gift ideas in store.

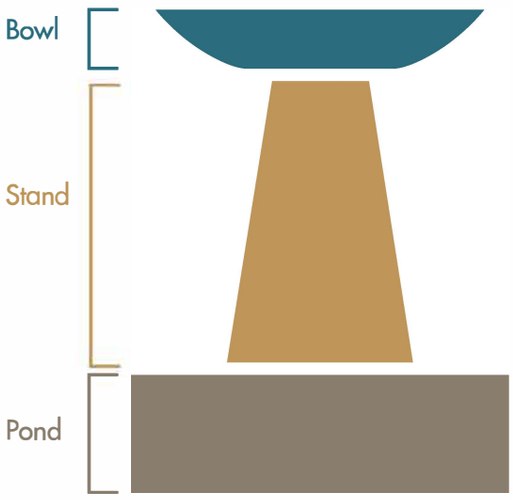
Stone Water Packages

Our water packages come in a huge range of styles. Any of the pots or bowls can be converted into an overflowing water feature or a bubbler feature. Call us for advice



Mix & Match your own Feature

We can provide custom fibreglass ponds to any suit any area



Stone Water features typically come as packages, but you can customise your own design. Ask our expert personnel now on 03 9486 8323
